

RUSSIANS IN RETREAT

FIFTEEN THOUSAND MEN BEGIN JOURNEY FROM NEWCHWANG TO LIAOYANG.

WILL AVOID A GREAT BATTLE

KUROPATKIN MAY FALL BACK TO HARBIN BEFORE RISKING AN ENGAGEMENT.

London, May 10.—The Tokio correspondent of the Daily Chronicle says that 15,000 Russians are retiring from Newchwang to Liaoyang.

The correspondent says that Chinese bandits have destroyed the road to Tashichia and to Haicheng. Tashichia is the junction for the Newchwang branch of the Port Arthur Mukden route and Haicheng is further north on the main line. The Russians are making a new road.

The Russian authorities have promised to leave sufficient guard to prevent pillaging by the Chinese bandits.

The correspondent adds that bandits have attacked and cut other parts of the railroad, and points out that the capture of Dalny will enable the Japanese to cut off Port Arthur's electric supply.

A GENERAL RETREAT

GENERAL KUROPATKIN WILL TRY TO AVOID A BATTLE UNTIL ARMY IS LARGER.

Paris, May 10.—The correspondent at St. Petersburg of the Echo de Paris telegraphs as follows:

General Kuropatkin has ordered a general retreat and no doubt intends to avoid a battle until he has sufficient forces. He actually has at his disposal not more than 150,000 men, exclusive of the garrison at Port Arthur, which consists of 30,000, and the garrison at Newchwang of 15,000.

A general who knows the secrets of the mobilization, tells me that the last 100,000 men, making up the required 500,000, will leave Kasan July 21, adding:

"We will be very sick, if the railway is not worked well. It is not likely that General Kuropatkin will fatigue his troops unnecessarily. If the Japanese press him he will retire from Liaoyang to Mukden or even to Harbin. Retreat certainly is painful, but is not indispensable."

RUSSIANS LEAVE NEWCHWANG.

Supposed to Have Evacuated the Place Monday Night.

Chefoo, May 10.—Passengers arriving today from Newchwang say that the Russian force probably evacuated that place during the night.

Many had already departed yesterday and those remaining made no secret of their intention to leave. There is no activity whatever at the forts where there are still guns in operation. Three thousand bandits are camped outside of the walls of Newchwang ready to begin looting at the moment the last of the Russian soldiers have left the city. There are many foreign camp followers with the bandits who are giving the Russians much trouble along the railway between Newchwang and Mukden. Last week they destroyed a culvert and delayed traffic for four days.

The Japanese fleet was in force off Port Arthur at midday Monday but did not make any hostile demonstration.

SYNDICATE IS FORMED.

Will Handle the Japanese Loan in the United States.

New York, May 10.—Kuhn, Loeb & Co. have completed the formation of the syndicate which is to handle the \$25,000,000 of the Japanese loan which is to be placed in this country. The syndicate will comprise several important banks as well as several of the largest private banking houses. The success of the flotation is said to be assured. Monday bids for the new bonds were made at a premium of about 3 per cent over the price at which they are to be issued, about 93½.

TWO CHILDREN CREMATED.

A Third Probably Fatally Burned by Gasoline Stove Explosion.

Alexandria, Va., May 10.—Two children, Robert and Carrie Harper, aged eight and two, were burned to death on a pitch laden scow while helping their sister, Mabel, aged twelve, get their father's dinner. The gasoline stove exploded and set fire to the scow. Mabel was rescued after being seriously and perhaps fatally burned. It was impossible to recover the bodies of the younger children.

Chicago Bookbinders to Strike.

Chicago, May 10.—Eight hundred bookbinders in the shops of the Chicago Typothetae will go on strike today. The trouble is over the adoption of the yearly working agreement. Last year it included a clause providing for "the closed shop;" this year the employers insist upon an "open shop."

CENSORSHIP FOSTERS RUMORS.

Russians Hear That the Cruiser Rurik Has Been Destroyed.

St. Petersburg, May 10.—The war committee adjourned at a late hour this morning, but did not make public any dispatches from the far East. This is accepted as an indication that no fresh collisions have occurred. The Cossacks in touch with the Japanese are simply small detachments, which are observing the movements of the enemy in order to keep General Kuropatkin informed.

The strict censorship prevented the St. Petersburg newspapers from receiving dispatches Monday and the lack of information gave rise to a fresh crop of rumors, including one that the armored cruiser Rurik had been destroyed. The officials deny that any information of this character has been received, saying that the latest reports showed that the Rurik was undamaged and was in the harbor of Vladivostok.

FATE OF FORTY MISSING MEN.

Japan Requests United States to Inquire Into the Matter.

London, May 10.—The Daily Telegraph's Tokyo correspondent, telegraphing under date of May 9, says: "The Japanese have requested the United States government to inquire into the fate of forty men who were missing after the blocking of Port Arthur. It is believed that several of them were captured."

"It is reiterated that the Japanese have occupied Dalny."

"I learn from trustworthy sources that the Russians in the battle of the Yalu lost over forty guns, enormous quantities of war material, horses, carts, ammunition and equipment."

TRYING TO EVADE THE JAPS.

Portion of the Vladivostok Fleet Has Been Shut Out.

London, May 10.—The Daily Telegraph's Seoul correspondent says: "It is believed here that a portion of the Russian Vladivostok fleet has been successfully shut out and is now in the sea of Japan trying to evade the Japanese."

THIRTY ARE KILLED

FIFTY OTHER RUSSIANS ARE INJURED IN A TRAIN BOUND FOR HARBIN.

London, May 10.—A dispatch to a news agency from Liaoyang dated May 10, says:

"An accident to a train from Port Arthur to Harbin occurred May 8 near Tieling. Thirty passengers were killed and fifty injured and the permanent way was greatly damaged."

"It is reported that a three days' typhoon greatly retarded the Japanese landing at Pitsewo."

WARSHIP FOR NEWCHWANG.

An American Vessel Will Probably Be Sent to That Place.

Washington, May 10.—The attention of the state department has been drawn to the possibility of rioting and looting at Newchwang in the indefinite interval of time between the expected Russian withdrawal and the Japanese occupation of the port. Secretary Hay had a consultation with the president respecting the advisability of again sending a warship to Newchwang to safeguard American interests and as far as possible to prevent outrages upon other foreigners by brigands. It is believed that an intimation has been conveyed from the British government to our own government that the dispatch of a United States ship to Newchwang might prevent the appearance of undue activity on the part of a single power.

The navy department has several vessels within two or three days' sail of Newchwang, the nearest being the Raleigh, now at Chemulpo.

SETTLEMENT LOOKED FOR.

Lake Carriers' Association and Employes Confer.

Cleveland, O., May 10.—Upon the request of representatives of the Masters and Pilots' association, a joint conference between the executive committees of the Lake Carriers' association and the Masters and Pilots' association was held here Monday. President Livingston of the Lake Carriers, who presided at the conference, expressed the belief that a settlement would be reached, probably at the end of this week, and he thought it would be satisfactory to the Lake Carriers' association.

From one of those in attendance it was learned that the Lake Carriers' association stands by its first position of being willing to pay last season's wages. The matter was then taken up by the masters and pilots, who agreed to recommend the acceptance of the proposition submitted by the several harbors along the lakes. The harbors are to hold meetings not later than Wednesday night of this week and their decision is to be made known to the headquarters in this city.

Mr. Stanley was for many years a Liberal Unionist member of parliament, and was the author of numerous books on travel and exploration.

WOUNDED BY A FARMER.

Wisconsin Detective Shot While Trying to Make an Arrest.

Duluth, May 10.—Detective John Elliott of Eau Claire was shot in the arm by John Dietz, a farmer living fourteen miles from Radison, Wis., and a posse who had come to assist in the arrest of Dietz was put to flight. The trouble originated over Dietz's refusal to allow logs to pass over a dam which he owns, unless he was paid at the rate of 10 cents per hundred feet.

Six men set out to arrest Dietz, and they found him on guard at his property. When the officer approached, he flourished a rifle and ordered the detective to stay away. When the admonition was not heeded, Dietz fired, Elliott fell to the ground and his companions took to their heels. The sheriff, with a strong posse, effected the capture of Dietz. Elliott was hurried to Rice Lake, Wis., where a physician was summoned.

DENIED AT ST. PETERSBURG.

Report That Typhoid, Dysentery and Smallpox Prevails Among Troops.

St. Petersburg, May 10.—Count Vorontzoff Dashkoff, head of the Russian Red Cross, authorizes an absolute denial of the report, published by a news agency in the United States, that an urgent telegram had been received at St. Petersburg from Mukden asking for the immediate dispatch of 100 extra doctors and announcing that an epidemic of typhoid fever, dysentery and smallpox had broken out among the Russian troops.

RUSSIAN FOREIGN LOAN.

Details Will Probably Be Announced on May 12.

St. Petersburg, May 10.—The details of the Russian foreign loan are expected to be announced here officially May 12.

Prices on the bourse, which have been very weak since the Yalu battle, had a further fall Monday, Russian imperial funds declining 1 per cent to 89.

SITUATION AT PORT ARTHUR.

Coal and Food Supply Will Not Last Long.

Shanghai, May 10.—A merchant here who is in a position to have trustworthy information says that at Port Arthur there is only coal sufficient to last the warships for six weeks, and the food supply there will feed 8,000 men for three months only.

Risks Her Life to Save a Child.

Kokomo, Ind., May 10.—At the risk of her life Miss Blanche Keller snatched from in front of a swiftly moving train, Mary Dwyer, two years old, who was playing on the tracks. A part of Miss Keller's skirt was caught in the wheels of the engine and torn.

Young Girl Suicides.

Sutton, Neb., May 10.—Bertha Heiler, aged seventeen, the daughter of a prominent retired farmer and stockman, committed suicide Monday by shooting herself through the heart. The deed is said to be due to brooding over parental chastisement.

DEBATE IS SENSATIONAL.

Methodists Discuss Attitude of Catholic Church Toward Schools.

Los Angeles, Cal., May 10.—The attitude of the Roman Catholic church toward the public school system of the United States furnished the subject of a sensational debate in the Methodist general conference Monday. While there was a strong disposition on the part of certain delegates to have the conference adopt resolutions committing it to extreme utterances upon the subject there was an overwhelming sentiment as it developed against any such action and the entire matter was finally disposed of by referring it to a committee from which it is unlikely ever to be reported.

Several resolutions bearing upon the subjects of divorce, the termination of membership of neglected members, Sunday closing of the Lewis and Clark exposition, the endowment of the American university at Washington, the charges in the wording of various paragraphs in the discipline and other matters of importance to Methodists were submitted and debated by several committees.

PENDING AN INVESTIGATION.

New York Firm Suspended by Stock Exchange Board.

New York, May 10.—The firm of Floyd, Crawford & Co. was suspended by the board of the Consolidated Stock Exchange Monday, pending further investigation. The firm has about twenty-five branches in the United States and one in Montreal, Canada. The action was because of irregularities in business transactions.

RARE WINE MISSING.

Sixty Bottles Valued at \$30 Apiece Cannot Be Located.

St. Louis, May 10.—The Portuguese representatives at the world's fair have reported that sixty bottles of rare Portuguese wine are missing in a shipment, which was received at the palace of agriculture a few days ago. The original shipment contained 160 bottles. The wine is valued by the exhibitors at \$30 a quart.

GOVERN CANAL ZONE

GENERAL DAVIS SELECTED TO RULE THE AMERICAN STRIP ON THE ISTHMUS.

WASHINGTON, MAY 10.—

President Roosevelt had a long conference during the day with Secretaries Hay and Taft and Attorney General Knox, at which the regulations to govern the isthmian canal strip were determined on finally. While the creation and work of the commission is committed by law to the president, whose authority in that regard is practically supreme, the president, by the regulations, directs that the commission shall exercise its powers under the direction and supervision of the secretary of war.

General George W. Davis, the army member of the commission, is appointed governor of the American zone on the isthmus. Until the expiration of the Fifty-eighth congress the isthmian commission will exercise legislative authority over the American strip. Governor Davis is given authority to appoint one judge, who shall exercise judicial authority. If, in the opinion of the commission, an additional judge is necessary to the proper conduct of the judicial work on the isthmus the regulations confer on the commission authority to appoint him.

Secretary Taft explained that it manifestly would be impossible for the president, in the exercise of his duties, to give that personal attention to the canal work which is absolutely necessary and, as the war department hitherto has exercised supervisory control over work in the territory, it was deemed advisable that the isthmian commission should operate under the direction of the war department.

The rules for the government of the canal strip were announced late in the day. They are substantially the same as given in the press dispatches some time ago.

SEAL FISHERY HAS ENDED.

Total Catch Is Below That of Last Year.

St. John's, N. F., May 10.—The seal fishery for 1904 has ended. The total catch was 234,470 seals, the weight 5,736 tons and the value \$395,485. Twenty-two steamers were engaged this year in the fishery, one of which, the Elliot, was sunk.

Last year the catch was 217,562, the weight 6,275 tons and the value \$449,692.

SAFE BLOWN UP.

Thieves Get Nearly \$5,000 From a Gordon (Wis.) Saloon.

Superior, Wis., May 10.—A safe cracking at Gordon, this county, was reported to the sheriff Monday. The affair is supposed to have occurred Monday morning. The saloon of Peter Nelson was entered and \$129 in cash, \$600 in checks and \$4,000 in notes were taken. The safe was blown up with nitroglycerin and the big charge entirely destroyed it.

Quick Did Quick Work.

Terre Haute, Ind., May 10.—Within half an hour of having been locked up for alleged horse stealing, Henry Quick committed suicide last night in the county jail. His body was found hanging by a handkerchief from the top bars of the cell.

TRAINS IN COLLISION

TWO OF THOSE ON A NEW YORK ELEVATED LINE WRECKED WITH LOSS OF LIFE.

PANIC AMONG PASSENGERS

FIRE ADDS TO THE TERROR OF THE PEOPLE ON THE SHATTERED COACHES.

New York, May 10.—A rear end collision between two trains on the Third avenue elevated, between Fifty-six and Fifty-seventh streets, Monday afternoon, killed Motorman Kornell of the rear train and seriously injured five passengers.

Fire apparatus was summoned and firemen took the injured down on ladders.

The first car of the rear train smashed its way three-quarters of a length through the rear car of the second train and the exposed wiring set fire to the wreckage. The fire added to the panic. Passengers leaped through the shattered windows, braving the dangers of the third rail and until firemen and policemen arrived intense excitement prevailed. With such force did the rear train ram the one in front that the cars were lifted from the tracks and then settled down with a crash. Topping on the edge of the elevated structure, two cars hung out over the side at an angle of about forty-five degrees, but the coupling held and they were soon propped up by firemen. So great was the force of the collision that the cars could not be drawn apart and it was necessary to chop them to pieces.

When the firemen arrived, the passengers, many of whom were women, were running about wildly on the elevated structure, or were struggling to get out of the car windows. Several were injured by leaping from the windows. The first train had been held by repairs at Fifty-sixth street and was at a standstill when the accident occurred.

The accident occurred at one of the busiest times in the afternoon and traffic on elevated and surface lines was blocked.

MONEY FOR IRRIGATION.

Secretary of the Interior Sets Apart a Large Sum.

Washington, May 10.—Acting under the terms of the irrigation reclamation law the secretary of the interior Monday set apart \$8,100,000 of the reclamation fund in connection with the following projects:

For the Yuma project on the Colorado river, covering about 85,000 acres in Arizona and California, \$3,000,000.

The Belle Fourche project in South Dakota, 60,000 acres, \$2,100,000.

The Malheur project in Oregon, 75,000 acres, \$2,000,000.

The Fort Buford project on the Yellowstone river in North Dakota, \$1,200,000.

The appropriation will leave only about \$6,000,000 of the reclamation fund of \$27,000,000 to be disposed of.

TWO TRAINMEN KILLED.

Crushed to Death in Wreck of an Express Train.

New York, May 10.—Two men were killed at 1 o'clock this morning in the wreck of a southbound Adams express special at Port Chester, N. Y., on the New York, New Haven and Hartford railroad.

The dead are Engineer Larry Keenan and Fireman John Howes.

The engine and two express cars left the track and toppled over the embankment. Keenan and Howes were carried over in the locomotive and crushed to death. So far as reported no person was injured, and the train carried no passengers.

RUSSIA WILL PARTICIPATE.

Workmen Preparing Space for Her Exhibit at St. Louis.

St. Louis, May 10.—There is now no allotted space in any of the world's fair buildings that is unoccupied, with the exception of the reservations for exhibits from Russia and Argentine Republic, according to the statement of Director of Exhibits Skiff. Argentine's exhibits are en route to St. Louis and the exposition management was notified by cable last Saturday that Russia would finally participate with exhibits. Workmen were put to work Monday in the Varied Industries building to prepare the space allotted to Russia.

The board of lady managers, which has been in daily session for a week, held its final meeting Monday and adjourned until July 14.

WOMAN ENDS HER LIFE.

Shoots Herself With a Shotgun While Partially Insane.

Crookston, Minn., May 10.—Partially insane, imagining she was the object of unjust treatment by friends and relatives, Mrs. George Ranz of Fertile, after being relieved of a revolver by her husband when she tried to end her life, threw her two-year-old baby out of the window in a paroxysm of rage and committed suicide by placing a double-barreled shotgun to her breast and pulling the trigger by means of a long stick.

RARE WINE MISSING.

Sixty Bottles Valued at \$30 Apiece Cannot Be Located.

St. Louis, May 10.—The Portuguese representatives at the world's fair have reported that sixty bottles of rare Portuguese wine are missing in a shipment, which was received at the palace of agriculture a few days ago. The original shipment contained 160 bottles. The wine is valued by the exhibitors at \$30 a quart.

GOVERN CANAL ZONE

GENERAL DAVIS SELECTED TO RULE THE AMERICAN STRIP ON THE ISTHMUS.

Washington, May 10.—President Roosevelt had a long conference during the day with Secretaries Hay and Taft and Attorney General Knox, at which the regulations to govern the isthmian canal strip were determined on finally. While the creation and work of the commission is committed by law to the president, whose authority in that regard is practically supreme, the president, by the regulations, directs that the commission shall exercise its powers under the direction and supervision of the secretary of war.

General George W. Davis, the army member of the commission, is appointed governor of the American zone on the isthmus. Until the expiration of the Fifty-eighth congress the isthmian commission will exercise legislative authority over the American strip. Governor Davis is given authority to appoint one judge, who shall exercise judicial authority. If, in the opinion of the commission, an additional judge is necessary to the proper conduct of the judicial work on the isthmus the regulations confer on the commission authority to appoint him.

Secretary Taft explained that it manifestly would be impossible for the president, in the exercise of his duties, to give that personal attention to the canal work which is absolutely necessary and, as the war department hitherto has exercised supervisory control over work in the territory, it was deemed advisable that the isthmian commission should operate under the direction of the war department.

The rules for the government of the canal strip were announced late in the day. They are substantially the same as given in the press dispatches some time ago.

SEAL FISHERY HAS ENDED.

Total Catch Is Below That of Last Year.

St. John's, N. F., May 10.—The seal fishery for 1904 has ended. The total catch was 234,470 seals, the weight 5,736 tons and the value \$395,485. Twenty-two steamers were engaged this year in the fishery, one of which, the Elliot, was sunk.

Last year the catch was 317,562, the weight 6,275 tons and the value \$449,692.

SAFE BLOWN UP.

Thieves Get Nearly \$5,000 From a Gordon (Wis.) Saloon.

Superior, Wis., May 10.—A safe cracking at Gordon, this county, was reported to the sheriff Monday. The affair is supposed to have occurred Monday morning. The saloon of Peter Nelson was entered and \$139 in cash, \$600 in checks and \$4,900 in notes were taken. The safe was blown with nitroglycerin and the big charge entirely destroyed it.

Quick Did Quick Work.

Terre Haute, Ind., May 10.—Within half an hour of having been locked up for alleged horse stealing, Henry Quick committed suicide last night in the county jail. His body was found hanging by a handkerchief from the top bars of the cell.

TRAINS IN COLLISION

TWO OF THOSE ON A NEW YORK ELEVATED LINE WRECKED WITH LOSS OF LIFE.

PANIC AMONG PASSENGERS

FIRE ADDS TO THE TERROR OF THE PEOPLE ON THE SHATTERED COACHES.

New York, May 10.—A rear end collision between two trains on the Third avenue elevated, between Fifty-six and Fifty-seventh streets, Monday afternoon, killed Motorman Korrell of the rear train and seriously injured five passengers.

Fire apparatus was summoned and firemen took the injured down on ladders.

The first car of the rear train smashed its way three-quarters of a length through the rear car of the second train and the exposed wiring set fire to the wreckage. The fire added to the panic. Passengers leaped through the shattered windows, braving the dangers of the third rail and until firemen and policemen arrived intense excitement prevailed. With such force did the rear train ram the one in front that the cars were lifted from the tracks and then settled down with a crash. Tottering on the edge of the elevated structure, two cars hung over the side at an angle of about forty-five degrees, but the coupling held and they were soon propped up by firemen. So great was the force of the collision that the cars could not be drawn apart and it was necessary to chop them to pieces.

When the firemen arrived, the passengers, many of whom were women, were running about wildly on the elevated structure, or were struggling to get out of the car windows. Several were injured by leaping from the windows. The first train had been held by repairs at Fifty-sixth street and was at a standstill when the accident occurred.

The accident occurred at one of the busiest times in the afternoon and traffic on elevated and surface lines was blocked.

MONEY FOR IRRIGATION.

Secretary of the Interior Sets Apart a Large Sum.

Washington, May 10.—Acting under the terms of the irrigation reclamation law the secretary of the interior Monday set apart \$8,100,000 of the reclamation fund in connection with the following projects:

For the Yuma project on the Colorado river, covering about 85,000 acres in Arizona and California, \$3,000,000. The Belle Fourche project in South Dakota, 60,000 acres, \$2,100,000.

The Malheur project in Oregon, 75,000 acres, \$2,000,000. The Fort Buford project on the Yellowstone river in North Dakota, \$1,200,000.

The appropriation will leave only about \$6,000,000 of the reclamation fund of \$27,000,000 to be disposed of.

TWO TRAINMEN KILLED.

Crushed to Death in Wreck of an Express Train.

New York, May 10.—Two men were killed at 1 o'clock this morning in the wreck of a southbound Adams express special at Port Chester, N. Y., on the New York, New Haven and Hartford railroad.

The dead are Engineer Larry Keenan and Fireman John Howes.

The engine and two express cars left the track and toppled over the embankment. Keenan and Howes were carried over in the locomotive and crushed to death. So far as reported no person was injured, and the train carried no passengers.

RUSSIA WILL PARTICIPATE.

Workmen Preparing Space for Her Exhibit at St. Louis.

St. Louis, May 10.—There is now no allotted space in any of the world's fair buildings that is unoccupied, with the exception of the reservations for exhibits from Russia and Argentine Republic, according to the statement of Director of Exhibits Skiff. Argentine's exhibits are en route to St. Louis and the exposition management was notified by cable last Saturday that Russia would finally participate with exhibits. Workmen were put to work Monday in the Varied Industries building to prepare the space allotted to Russia.

The board of lady managers, which has been in daily session for a week, held its final meeting Monday and adjourned until July 14.

WOMAN ENDS HER LIFE.

Shoots Herself With a Shotgun While Partially Insane.

Crookston, Minn., May 10.—Partially insane, imagining she was the object of unjust treatment by friends and relatives, Mrs. George Ranz of Fertile, after being relieved of a revolver by her husband when she tried to end her life, threw her two-year-old baby out of the window in a paroxysm of rage and committed suicide by placing a double-barreled shotgun to her breast and pulling the trigger by means of a long stick.

Members of Company F Have Been Out Twice and Have Good Shoot.

Capt. Heffner has succeeded in making another improvement for the convenience of the members of company F which will be the means of considerable amusement as well as being profitable. A new rifle range has been secured on the Frank Walker land on the bank of the Mississippi river about two miles south of the city, and it is stated by those who are possessed of considerable knowledge on ranges of this kind that this is one of the best, and is unusually well located. The ground from the target to the 200 and 300 foot ranges is as level as a table.

The target has been placed on the bank of the river and in the pit there are two large target frames, the same being connected by telephone to the different ranges so that those who are shooting are kept advised continually of the scores made. The 500 and 1000 foot ranges are on a slight elevation, and are admirably located. The pit is so arranged that there is little danger and the members of company F are already anticipating considerable amusement here this summer. They have been out the past two Sundays and some good scores were made, notwithstanding everything was strange.

BEMIDJI WANTS "HELLO BILLS"

Movement Evidently On Foot to Get the Antlered Brethren to Go there for the Summer Outing Excursion.

I. Meyer has received a letter from the committee in charge of the annual picnic and outing of the Brainerd lodge of Elks in which it is stated that the Elks are planning to hold their annual picnic at Bemidji. All the plans are not as yet definitely settled, but it is probable that the Elks will come to this city. A special train will be chartered to bring the visitors from Brainerd and the date of the picnic is fixed for June 21.

The Brainerd lodge has a number of members in this city and the boys will interest themselves at once to induce the committee to name Bemidji as the place for the picnic. Last year it was held at Walker. In the event that it is decided to hold the picnic here the excursion which will bring it to this city will be one of the largest which has ever come to Bemidji and the local Elks will make an effort to interest the business public in doing the honors for the occasion in a befitting manner.—Bemidji Pioneer.

WILL BUILD FIRE PROOF WAREHOUSE

D. M. Clark & Co. Will Commence Operations at Once on Large Storehouse

THE BUILDING WILL BE 50X150

And It Will Be One of the Best for the Purpose in the City of Brainerd.

D. M. Clark & Co., with their usual push and energy, have already decided to build another warehouse to take the place of the old rink which they had leased for a number of years, but the new structure will not be at the same location. The building will be erected on fifth street south nearly opposite the office and shop of C. B. Rowley, the contractor.

Mr. Clark, of the firm of D. M. Clark & Co., negotiated sometime ago for the lots on which he will build this new warehouse anticipating that something might happen to the old rink.

The new structure will be 50x150 feet one story high and will be solid brick and fire proof. The building will be erected with every convenience for the warehouse business and will be modern in every particular. The cost will be about \$5000.

MADLY INSANE OVER WOMAN

Charles Noe Brought Down from Walker

This Morning a Raving Maniac and Taken to Fergus Falls.

This morning Sheriff Hardy came down from the north and had in his custody Charles Noe, a raving maniac, who was taken to Fergus Falls to be placed in the hospital for the insane. Noe is a Morrison county man, but of late has been working in the vicinity of Walker. Yesterday he became suddenly insane and his case is a very aggravated one. After the sheriff placed him under arrest it took five men to hold him down and it was all that Sheriff Hardy and a strong deputy could do to handle him, although he had been placed in a half straight jacket. The cause of his demented condition is said to be woman.

Funeral over the Remains of the Late Mrs. Kate Closterman Held this Morning from St. Francis Church

The funeral services over the remains of the late Mrs. Kate Closterman were held this morning from St. Francis Catholic church, Rev. Father D. W. Lynch officiating at requiem mass. There was a large attendance of the old friends of the deceased, many coming from Staples to be present.

Rev. Father Lynch spoke of the life and character of the deceased in words of praise and paid her a tribute for her constancy in serving her God, her fidelity to her family and for her many acts of charity. The few words spoken fell from the lips of the reverend gentleman with a tenderness that made the occasion an extremely solemn one.

Mrs. Closterman was at one time a resident of this city and was a member of the congregation of St. Francis church. ATTEMPTED JAIL DELIVERY

Frustrated by a Tip Which Deputy Sheriff Riddell, of Walker, Received a Few Days Ago

A rumor leaked out a few days ago of a plan for a general jail delivery, just after the criminal trials at the recent term of court, and which was frustrated by the watchfulness of Deputy Sheriff Riddell, who made a tour of the cells after getting an inkling of what might be contemplated, and found an old saw, a heavy club and other weapons that had presumably been smuggled in and concealed by some of the men while they were employed carrying in wood says a dispatch from Walker to the St. Paul Dispatch. They had also held out a portion of their daily rations so that they might have something to eat after getting out and until they were well away from Walker.

The sheriff, when questioned about the affair, had not much to say beyond confirming the facts in a general way, and Mr. Riddell was too modest to boast of his achievement in outwitting the prisoners.

Nikolai Hill, who was sentenced to serve a term of twelve years in the penitentiary for killing Richard Sanger in a lumber camp, has been taken to Stillwater by Sheriff Hardy. Hill did not seem to be at all disturbed over the prospect of enforced confinement for so long a term, and the sheriff, not anticipating any trouble with him, did not deem it necessary to put on the handcuffs. Mr. Hardy had made arrangements for a special deputy to meet him at Brainerd and accompany him and the prisoner to Stillwater, it being a pretty long journey for one man to be constantly on watch.

The jail at Walker is now comparatively empty, having only three inmates. Two of these are Hubbard county prisoners, kept there until the term of court next month at Park Rapids, because Hubbard has not yet a jail of its own. The other man is Choudard, the Cass Lake murderer, who has three months for meditation before his execution.

Announcement.

I desire to announce to the people of Brainerd that I am now conducting a strictly first class cafe and catering exclusively to the trade of ladies and gentlemen, and I give my personal assurance that the most fastidious may patronize it with perfect propriety. It is handsomely furnished throughout and equipped with private dining rooms for the use of family and theatre parties and no expense or pains have been spared to supply the tables with the very best that a metropolitan market can afford. I have been fortunate enough to secure the services of Chef Anderson, late of the West Hotel, Minneapolis, and one of the best artists in his line in the entire western country, and this in itself should be a sufficient guarantee of the high standard I am endeavoring to maintain. We make a specialty of sea foods, shell fish, lobsters and Kansas City loins, and serve you on very short notice at any time either day or night. A business man's lunch is served from 11:30 a. m. to 2:30 p. m., daily, for twenty-five cents; short orders are served during this same time if preferred. Commutation tickets are sold for \$4.50, good for \$5.00 in trade. The entrance is on 5th street at the rear of King's candy store. 286tf

Men Loading Large Sewer Tile Find a Quantity of Cigars and Merchandise

SUPPOSED TO HAVE BEEN STOLEN

From Cars in The N. P. Yards of City During the Past Few Months.

Yesterday afternoon while a crew of men were loading the large sewer tile piping at the east end of the N. P. yards in the city they found a "plant" which contained a large quantity of merchandise, cigars and whisky, which are supposed by the authorities to have been stolen from the freight cars in the city during the past five or six months.

One of the large tile sections was standing upright and the stuff was inside of this. There was something like \$25 worth of cigars, a case of whiskey and a large case of merchandise. Most of the goods in the boxes and bottles had been removed however. The goods were for different merchants at points up the M. & I.

The police think they have a clue to the guilty party, but at present are working on the quiet.

During the winter months a large quantity of merchandise was stolen from the cars in the yards of the city and the police have been at loss to place the criminals. The amount found yesterday will exceed \$100.

THE MUSICAL CLUB CONCERT

Parlors of the Y. M. C. A. Comfortably Filled for the Occasion—A Good Program was Heard.

The Ladies' Musical club members were heard in concert last evening in the Y. M. C. A. parlors, the same being for the benefit of the association. The program, varied and well arranged, was very much enjoyed by those who had gathered to hear the ladies. Too much commendation can not be said for the ladies' chorus who has been under the supervision of Mrs. J. C. Atherton. They gave one selection and a sextette gave another. The Misses Mysen, Schultz and Horn were heard to good advantage in piano selections. They are always admired by a Brainerd audience and they were given a hearty reception. Mr. Jay Patek on the mandolin accompanied by Mrs. Patek on the piano was a good number. Mr. Thos. Cawley was heard to good advantage in a violin selection and he was accompanied in an intelligent manner by Mrs. Cawley. Miss Lottie White rendered a vocal solo and Mrs. Atherton and Miss Clotilde McCullough gave a vocal duet, but good numbers. It was a pleasant evening withal and was enjoyed by those present.

Bath tubs will soon be added. This makes it one of the prettiest and coziest barber shops in the city. Mr. Slama says he will run his shop strictly first class. He now has as assistant, Mr. W. Latta, who has had a wide experience and is an expert with the razor and shears. Mr. Slama himself is a barber of rare ability having worked in some of the best shops in Minneapolis, Chicago and the west. He is also well known here in Brainerd having worked in the John Cochran shop before he lost his limb. He wears an artificial leg now and says he is able to work at the trade as ever. Brainerd Lumber Company

BRAINERD, MINN.

Mills and Yards at Rice Lake, East Brainerd.

We have constantly on hand a complete stock of Lumber, Lath Shingles and Building Material. Short Lumber of all grades, and Low Grade of Dimension and boards at very low prices for Cash.

Announcement.

I desire to announce to the people of Brainerd that I am now conducting a strictly first class cafe and catering exclusively to the trade of ladies and gentlemen, and I give my personal assurance that the most fastidious may patronize it with perfect propriety. It is handsomely furnished throughout and equipped with private dining rooms for the use of family and theatre parties and no expense or pains have been spared to supply the tables with the very best that a metropolitan market can afford. I have been fortunate enough to secure the services of Chef Anderson, late of the West Hotel, Minneapolis, and one of the best artists in his line in the entire western country, and this in itself should be a sufficient guarantee of the high standard I am endeavoring to maintain. We make a specialty of sea foods, shell fish, lobsters and Kansas City loins, and serve you on very short notice at any time either day or night. A business man's lunch is served from 11.30 a. m. to 2.30 p. m., daily, for twenty-five cents; short orders are served during this same time if preferred. Commutation tickets are sold for \$4.50, good for \$5.00 in trade. The entrance is on 5th street at the rear of King's candy store. 28616

UNCLE SAM'S WONDERS

All Executive Departments Send Treasures to the World's Fair.

Display Installed in the Largest Governmental Exposition Building Ever Constructed—Precious Documents—Relics of Famous Statesmen and Soldiers. Working Postal Exhibit.

The United States Government building at the World's Fair occupies an elevated site just south of the main picture of the Exposition. The great central dome of the Government building is visible from the very center of the Fair, looking across the picturesque sunken garden that lies between the Palaces of Mines and Metallurgy and Liberal Arts.

The hill slope in front of the Government building is terraced with broad stairways almost completely covering the slope. The building is 800 feet long by 250 feet wide and is the largest structure ever provided at an exposition by the federal government. It is distinguished from all the other large buildings at the Exposition by the steel truss construction, the entire roof being supported by steel arches, forming a splendid domed ceiling.

In this building are installed the exhibits of all the executive departments of the government. The building is a vast storehouse of an endless variety of treasures dear to the heart of every true American. Precious documents are to be seen here, and the autographs of our great men of the past are on display. Relics of famous statesmen and soldiers, carefully preserved through generations, are exhibited. Each governmental department has installed an exhibit showing its official character and mode of operation.

Entering the Government building from the eastern end, the visitor sees at his left a railroad postoffice car. This is not a mere coach standing idle,

world. Its interior decorations, by Elmer Ellsworth Garney, furnish one of the chief delights of a visit to the national capital. A large model of this splendid building is a feature of the exhibit. The decorative features of the interior are reproduced in their original colors.

The next exhibit on the right hand side of the central aisle is that of the Interior Department, occupying 11,792 square feet. In this large space the visitor finds so many things of compelling interest that he is loath to leave. The Patent Office exhibit belongs to this section. There are models of many machines that have borne an important part in the development of the nation's industries. The earliest form of every device of human invention, so far as possible, is shown here. For instance, you may see the actual sewing machine that was the first contrivance of its kind ever constructed; it was patented in 1846 by Elias Howe. The first typewriter, patented by C. Thurber in 1842; the model of the first cast iron plow, patented by Charles Newbold in 1797; the first screw propeller, invented by Robert Hook in 1680; and many other "first" things are to be seen. The model of Abraham Lincoln's celebrated device for lifting steamboats off shoals is shown here. The first harvesting machine, made in the year 180 R. C., is one of the most ancient exhibits at the Exposition. There is also a model of the first steam engine, made in Egypt in the same year.

Every foot of the 200,000 feet of floor space in Uncle Sam's World's Fair building is occupied by exhibits of surpassing interest, and every phase of the people's welfare is shown.

CURIOUS THINGS FROM CHINA

The Most Magnificent Beds Ever Seen Are Part of the Celestial Empire's World's Fair Exhibit.

The Chinese exhibit at the World's Fair is filled with pleasing surprises. Some of the most magnificent articles of furniture are a part of this wonderful display. The carving and inlaying of ivory, bone and wood illustrate the marvelous skill of the Chinese.

Models included in this interesting exhibit show the homes and home life of the Chinese, their weddings and funerals, Chinese tea house, restaurant and shop, Chinese weaving and some of the beautiful silks and wearing apparel of the Chinese and their methods of manufacturing them.

One feature of the exhibit is two magnificent Chinese beds, each of which has the appearance of being a small house of great beauty. One is a summer bed, the other for winter. The summer bed is hand carved and inlaid with ivory and bone figures and landscapes exquisitely carved and so skillfully joined as to appear a part of the wood. The bed and furniture are of carved bamboo. The bed consists of an anteroom, with tables, chairs and tea stands, and in an inner room, which is the sleeping apartment, there is a couch with coverings of gauzy silks.

The winter bed is still more elaborate. It consists of three compartments. The first contains four chairs, a tea tray and a chest of drawers. This is the sitting apartment. The second is the dressing room, and the third is the sleeping apartment, or the couch itself. The furniture is of rosewood inlaid with ivory carving of birds, flowers and trees. The couch is covered with silks of the finest texture and in gaudy colors. The sleeping compartments are lighted with Chinese lanterns of silk hung at the outer entrance, while the light enters through gauze panels, hand painted and in forms of rosewood inlaid with ivory figures.

A table and dish made of highly polished ash, with exquisitely carved bamboo figures inlaid, are shown. The work is so artistically done that each article seems to have been made of one piece of wood.

There is also a large display of Chinese lanterns made of silk, gauze and other light material and some made of beads artistically arranged with glass centers. The silk and gauze are beautifully hand painted.

There are models of some of the great Chinese temples, theaters and arches, showing elaborate carving in wood and ivory and two large elephant tusks exquisitely carved.

WHARFAGE FREE AT ST. LOUIS

Twenty Miles of River Front For Water Craft at World's Fair City. Free wharfage will be given to all boats landing at St. Louis during the World's Fair. Traffic Manager Hilteary of the Exposition and Joseph P. Whyte, harbor and wharf commissioner of St. Louis, have decided on the locations assigned to the various kinds of boats.

Yachts, steam launches and all boats propelled by their own power have been assigned wharf space between Chouteau avenue and Biddle street. These streets, running east and west, form the boundary lines for the central business district of the city.

House boats have been assigned wharf space north of Biddle street and south of Chouteau avenue. St. Louis has a river front of twenty miles. The Broadway line of the Transit company parallels the river from the city limits on the north to Jefferson Barracks on the south. At no point are the cars more than five blocks from the Mississippi river. The World's Fair may be reached for one fare by transferring to any of the eight lines that cross Broadway and reach the Exposition grounds.

No charge will be made for wharfage. Application for space should be made to the harbor and wharf commissioner at the City Hall, on Twelfth street, between Market street and Clark avenue.

ALL HOPE ABANDONED.

Burning Mine in Which Five Men Are Entombed to Be Flooded.

Shamokin, Pa., May 10.—All hope that the five men who were imprisoned on Thursday last in the burning, abandoned Gap mine are alive has been abandoned and the mine will now be flooded to extinguish the flames. A fierce fire is still raging in the mine. James E. Roderick, chief of the state bureau of mines; John Fahy and Miles Dougherty, officers of the United Mine Workers, officials of the Philadelphia and Reading company and relatives of the five men in the burning mine agreed that the missing miners were dead, whereupon Chief Roderick gave permission to the company to flood the mine.

500 LINE ENTERS RATE WAR.

Other Roads Running East From Twin Cities Will Not Meet Rates.

Chicago, May 10.—The Soo line Monday entered into the rate war that has existed for several days between Chicago and St. Paul and Minneapolis by announcing a rate of \$2 above the Chicago rate from St. Paul and Minneapolis to Eastern destinations. The railroads running east from Chicago have decided that they will not attempt to meet the Soo line rates to the East, as their so doing would demoralize the passenger rates between Chicago and the Atlantic coast.

PROMINENT FARMER KILLED.

Slayer Taken to Another Town to Escape Possible Violence.

Des Moines, Ia., May 10.—William Porter was shot five times and killed by Millard E. Buck, at Prairie City Monday afternoon. Porter was seventy years old and a prominent farmer. The cause of the shooting is said to be rumors connecting Buck's name with that of a woman. Buck was taken to Newton to escape possible violence and lodged in jail. He appears to be mentally unbalanced.

Drowned in an Oil Tank.

Batson, Tex., May 10.—Harvey Bradley, field manager for Tice & Bradley, fell into an oil tank and was drowned. He had gone to the top of the tank, which was a 1,200 barrel settling tank and it is supposed he became overpowered by gas and fell in.

HYOMEI'S SUCCESS IN BRAINERD

Cured Many Serious Cases of Catarrh. H. P. Dunn & Co. Will Refund Money If It Fails.

No other medicine or treatment for catarrh has ever achieved such quick and remarkable success in Brainerd as Hyomei. The fact that H. P. Dunn & Co., when they first introduced Hyomei sold it under a positive guarantee to refund the money in case it did not cure contributed largely to its successful introduction. A guarantee from a firm like H. P. Dunn & Co. gave people confidence at the start.

Those who obtained a Hyomei outfit found that the treatment did all that was claimed for it; that the first few breaths of Hyomei cleared the air passages and gave an exhilarating and invigorating effect. Its continued use freed the system from all catarrhal germs, soothed and healed the mucous membrane, and made a complete and lasting cure.

Compared with the dangerous stomach drugging that had been used heretofore in the treatment of catarrh, the balsamic air of Hyomei created a most favorable impression. And the medicine itself did even more than was claimed for it. In fact, to make a success, it was necessary that Hyomei should cure nearly every case of catarrh in which it was used, for every outfit was sold on a guarantee to refund the money in case it failed.

If it had not possessed unusual merit, an offer like this would have resulted in an enormous loss. But curing as it did, Hyomei soon gained an enviable reputation and made many friends who recommended it far and near. Its success here in Brainerd has been remarkable, and H. P. Dunn & Co. are still selling it on their personal guarantee to refund the money in case it does not give satisfaction. 16

LOUISIANA PURCHASE MONUMENT, WORLD'S FAIR.

but is one of the most improved mail cars, in which men attached to the United States railway mail service are actively engaged in "throwing" the mails. Here you will see the postal clerks at work, just as they work while speeding along a railroad track.

A curious collection of old time relics from the postoffice museum at Washington illustrates as no verbal description can do the crude beginnings of the postal system. One of these relics is an old fashioned stage-coach that once carried United States mails through a portion of the Louisiana purchase territory. President Roosevelt, who once inspected it, examined with a rough rider's interest the bullet holes which stage robbers and mountain brigands shot through its stiff leather curtains. Generals Sherman and Sheridan and President Garfield rode in this old coach during the strenuous days of frontier life. Among the collection of documents showing the primitive postal methods in vogue in the early days is to be seen the old book of accounts kept by the first postmaster general, Benjamin Franklin, all written by hand. There is a rare collection of stamps, including ancient Filipino, Porto Rican and Cuban stamps. The postoffice department's exhibit occupies 12,469 square feet.

Across the aisle, at the right, is the exhibit of the new Department of Commerce and Labor, occupying 1,966 square feet. This exhibit shows what the new executive department stands for and what it is accomplishing. Mr. Carroll D. Wright, United States Commissioner of Labor, had charge of the preparation of the exhibit. Charts arranged by him, showing the rapid growth of the nation in agriculture, arts, manufacture, population, etc., are of special interest to sociologists and all students of the labor problem. The Census Bureau exhibit is made in this section. It shows the tabulating machines used in compiling the census reports. The Lighthouse Board, also operating under this department, shows the great revolving lenses in light-houses, with other interesting appliances.

The space in the projecting northwest corner of the building is devoted to the Library of Congress. The edifice which houses this library at Washington is held by many architects to be the most beautiful building in the

world. Its interior decorations, by Elmer Ellsworth Gurnsey, furnish one of the chief delights of a visit to the national capital. A large model of this splendid building is a feature of the exhibit. The decorative features of the interior are reproduced in their original colors.

The next exhibit on the right hand side of the central aisle is that of the Interior Department, occupying 11,792 square feet. In this large space the visitor finds so many things of compelling interest that he is loath to leave. The Patent Office exhibit belongs to this section. There are models of many machines that have borne an important part in the development of the nation's industries. The earliest form of every device of human invention, so far as possible, is shown here. For instance, you may see the actual sewing machine that was the first contrivance of its kind ever constructed; it was patented in 1846 by Elias Howe. The first typewriter, patented by C. Thurber in 1842; the model of the first cast iron plow, patented by Charles Newbold in 1797; the first screw propeller, invented by Robert Hook in 1680; and many other "first" things are to be seen. The model of Abraham Lincoln's celebrated device for lifting steamboats off shoals is shown here. The first harvesting machine, made in the year 1850 B. C., is one of the most ancient exhibits at the Exposition. There is also a model of the first steam engine, made in Egypt in the same year.

Every foot of the 200,000 feet of floor space in Uncle Sam's World's Fair building is occupied by exhibits of surpassing interest, and every phase of the people's welfare is shown.

CURIOUS THINGS FROM CHINA

The Most Magnificent Beds Ever Seen Are Part of the Celestial Empire's World's Fair Exhibit.

The Chinese exhibit at the World's Fair is filled with pleasing surprises. Some of the most magnificent articles of furniture are a part of this wonderful display. The carving and inlaying of ivory, bone and wood illustrate the marvelous skill of the Chinese.

Models included in this interesting exhibit show the homes and home life of the Chinese, their weddings and funerals, Chinese tea house, restaurant and shop, Chinese weaving and some of the beautiful silks and wearing apparel of the Chinese and their methods of manufacturing them.

One feature of the exhibit is two magnificent Chinese beds, each of which has the appearance of being a small house of great beauty. One is a summer bed, the other for winter. The summer bed is hand carved and inlaid with ivory and bone figures and landscapes exquisitely carved and so skillfully joined as to appear a part of the wood. The bed and furniture are of carved bamboo. The bed consists of an anteroom, with tables, chairs and tea stands, and in an inner room, which is the sleeping apartment, there is a couch with coverings of gauzy silks.

The winter bed is still more elaborate. It consists of three compartments. The first contains four chairs, a tea poy and a chest of drawers. This is the sitting apartment. The second is the dressing room, and the third is the sleeping apartment, or the couch itself. The furniture is of rosewood inlaid with ivory carving of birds, flowers and trees. The couch is covered with silks of the finest texture and in gaudy colors. The sleeping compartments are lighted with Chinese lanterns of silk hung at the outer entrance, while the light enters through gauze panels, hand painted and in forms of rosewood inlaid with ivory figures.

A table and dish made of highly polished ash, with exquisitely carved bamboo figures inlaid, are shown. The work is so artistically done that each article seems to have been made of one piece of wood.

There is also a large display of Chinese lanterns made of silk, gauze and other light material and some made of beads artistically arranged with glass centers. The silk and gauze are beautifully hand painted.

There are models of some of the great Chinese temples, theaters and arches, showing elaborate carving in wood and ivory and two large elephant tusks exquisitely carved.

WHARFAGE FREE AT ST. LOUIS

Twenty Miles of River Front For Water Craft at World's Fair City.

Free wharfage will be given to all boats landing at St. Louis during the World's Fair. Traffic Manager Hilary of the Exposition and Joseph P. Whyte, harbor and wharf commissioner of St. Louis, have decided on the locations assigned to the various kinds of boats.

Yachts, steam launches and all boats propelled by their own power have been assigned wharf space between Chouteau avenue and Biddle street. These streets, running east and west, form the boundary lines for the central business district of the city.

House boats have been assigned wharf space north of Biddle street and south of Chouteau avenue.

St. Louis has a river front of twenty miles. The Broadway line of the Transit company parallels the river from the city limits on the north to Jefferson Barracks on the south. At no point are the cars more than five blocks from the Mississippi river. The World's Fair may be reached for one fare by transferring to any of the eight lines that cross Broadway and reach the Exposition grounds.

No charge will be made for wharfage. Application for space should be made to the harbor and wharf commissioner at the City Hall, on Twelfth street, between Market street and Clark avenue.

ALL HOPE ABANDONED.

Burning Mine in Which Five Men Are Entombed to Be Flooded.

Shamokin, Pa., May 10.—All hope that the five men who were imprisoned on Thursday last in the burning, abandoned Gap mine are alive has been abandoned and the mine will now be flooded to extinguish the flames. A fierce fire is still raging in the mine. James E. Roderick, chief of the state bureau of mines, John Fahey and Miles Dougherty, officers of the Philadelphia and Reading company and relatives of the five men in the burning mine agreed that the missing miners were dead, whereupon Chief Roderick gave permission to the company to flood the mine.

SOO LINE ENTERS RATE WAR.

Other Roads Running East From Twin Cities Will Not Meet Rates.

Chicago, May 10.—The Soo line Monday entered into the rate war that has existed for several days between Chicago and St. Paul and Minneapolis by announcing a rate of \$2 above the Chicago rate from St. Paul and Minneapolis to Eastern destinations. The railroads running east from Chicago have decided that they will not attempt to meet the Soo line rates to the East, as their so doing would demoralize the passenger rates between Chicago and the Atlantic coast.

PROMINENT FARMER KILLED.

Slayer Taken to Another Town to Escape Possible Violence.

Des Moines, Ia., May 10.—William Porter was shot five times and killed by Millard E. Buck, at Prairie City Monday afternoon. Porter was seventy years old and a prominent farmer. The cause of the shooting is said to be rumors connecting Buck's name with that of a woman. Buck was taken to Newton to escape possible violence and lodged in jail. He appears to be mentally unbalanced.

Drowned in an Oil Tank.

Batson, Tex., May 10.—Harvey Bradley, field manager for Rice & Bradley, fell into an oil tank and was drowned. He had gone to the top of the tank, which was a 1,200 barrel getting tank and it is supposed he became overpowered by gas and fell in.

HYOMEI'S SUCCESS IN BRAINERD

Cured Many Serious Cases of Catarrh.

H. P. Dunn & Co. Will Refund Money If It Fails.

No other medicine or treatment for catarrh has ever achieved such quick and remarkable success in Brainerd as Hyomei. The fact that H. P. Dunn & Co., when they first introduced Hyomei sold it under a positive guarantee to refund the money in case it did not cure contributed largely to its successful introduction. A guarantee from a firm like H. P. Dunn & Co. gave people confidence at the start.

Those who obtained a Hyomei outfit found that the treatment did all that was claimed for it; that the first few breaths of Hyomei cleared the air passages and gave an exhilarating and invigorating effect. Its continued use freed the system from all catarrhal germs, soothed and healed the mucous membrane, and made a complete and lasting cure.

Compared with the dangerous stomach drugging that had been used heretofore in the treatment of catarrh, the balsamic air of Hyomei created a most favorable impression. And the medicine itself did even more than was claimed for it. In fact, to make a success, it was necessary that Hyomei should cure nearly every case of catarrh in which it was used, for every outfit was sold on a guarantee to refund the money in case it failed.

If it had not possessed unusual merit, an offer like this would have resulted in an enormous loss. But curing as it did, Hyomei soon gained an enviable reputation and made many friends who recommended it far and near. Its success here in Brainerd has been remarkable, and H. P. Dunn & Co. are still selling it on their personal guarantee to refund the money in case it does not give satisfaction. 16
